UCLA Aesthetic Continuum 2015

July-September 2015

Lecture & Hands-on Lab Participation
Live Patient Demonstrations by Our Faculty

A comprehensive 3 weekend - 12-Day learning experience in aesthetics that will change the way you practice dentistry

UCLA School of Dentistry
Dear Colleague:

The UCLA Aesthetic Continuum will give participants access to the newest innovations and techniques in aesthetic dentistry. Our renowned experts will lecture, hold group discussions, conduct hands-on laboratory sessions, and perform live patient demonstrations. Participants will be encouraged to present an accreditation style case to the group.

The Continuum was designed to flow sequentially from lecture to discussion, to hands-on participation. Each lecture is closely paired with the hands-on laboratory session. One full day per weekend is dedicated to comprehensive treatment planning of the aesthetic case. The insight and knowledge necessary to think through these complex, diagnostic cases produces a successful aesthetic outcome. This format will expose participants to the newest scientific concepts and developments in aesthetic treatment modalities.

Ample time has been allotted for participants to interact with and ask questions of each instructor. By limiting the number of enrollees, participants will receive an intense level of individual attention and instruction. These discussion periods will allow each participant to ask questions and address concerns that are unique to their experiences and current cases.

Video demonstrations by our faculty are of live patient treatment. Participants will be able to watch esthetic procedures via a live, real-time video feed. Watching these step-by-step procedures and being able to ask the treating clinician questions as he performs them on a patient will assure a complete understanding and integration of these precise techniques. Our hands-on workshops on typodonts will build on these procedures.

Get the knowledge and experience you need to perform the most rewarding procedures in dentistry.

Sincerely,

Brian P. LeSage, DDS, FAGD, FAACD
Course Director
UCLA Aesthetic Continuum

Todd R. Schoenbaum DDS, FACP
Director
UCLA Continuing Dental Education
Continuum Overview

Here is your opportunity to get the latest knowledge and experience you need to perform the most precise, but also the most rewarding, Aesthetic procedures in dentistry. We will cover the Tools, Rules, and Strategies of Aesthetic Dentistry.

• Tools, Rules, and Strategies of Esthetic Dentistry
• Do you understand the relationship between function and esthetics?
• Are your patients suffering from post-operative sensitivity?
• Because modern materials have become so complex and change so rapidly, how do you choose the correct materials?
• Can you perform complex direct bonding, and do you know when it is indicated?

“Once it started and with each session, I felt even more enthused not only about the experience, but also about our profession as a whole! Each Monday following the weekend session, I “bounced” into work with a large grin on my face, raving about my experience. I am highly recommending this course.”

Continuum Structure

Lecture, follow-up discussions, hands-on laboratory participation workshops with typodonts, and live patient demonstrations performed by our instructors will allow immediate and interactive assimilation of this complex information into your daily practice.

• Is photography an integral part of your esthetic case planning?
• Veneers vs. Crowns--When and How. Indications, Prep designs and Temps
• Are minimal invasive procedures in your daily routine, and how do you inform your patients?
• Hands-on learning experiences with leading educators in the Esthetic field.
• How do you handle the case that presents with gingival esthetic problems?
Session 1 – July 16-19

July 16
Brian LeSage, DDS
• Introduction
• Dental photography
• Accreditation protocol
• Dental photography workshop

Edmond R. Hewlett, DDS
• Update on adhesive materials for modern restorative dentistry

July 17
Jeff Morley, DDS
• Esthetic dentistry: Diagnosis & design

July 18
Brian LeSage, DDS
• Photography review
• Adhesive dentistry allows expanded options, improved aesthetics, & increased comfort in today’s modern dentistry
• Bonding
• Anterior aesthetic restorations
• Color & contour

July 19
Brian LeSage, DDS
• Inlay/onlay preparations
• Live patient demonstration
• Hands-on laboratory

Session 2 – August 20-23

August 20
Edward McLaren, DDS
• Esthetic aspects, restorative applications and materials science of modern dental ceramics
• Hands-on laboratory: Shade taking exercise

August 21
Henry Takei, DDS, MS
• Essential elements of periodontal aesthetics (for you & your hygienist)

Brian LeSage, DDS
• Practice management integrated with high-technology dentistry into today’s contemporary practice for you and your team
August 22
Brian LeSage, DDS
• Crown vs. veneer
• Preparations and Temporaries

August 23
Brian LeSage, DDS
• Live patient demonstration of veneer or bonding case
• Hands-on laboratory: Direct bonding

“Definitely an inspiring course! This course has motivated me to reach the next level and I will never look at my work in the same light as I did before.”

Session 3 – September 24-27

September 24
George Perri, DDS
• Team approach in implant dentistry: Surgical & prosthetic considerations to achieve esthetic success

Brian LeSage, DDS
• Finishing & polishing techniques
• Hands-on laboratory

September 25
Jimmy Eubank, DDS
• Successful esthetics in dentistry: Patient management and treatment planning

September 26
Jimmy Eubank, DDS
• Predictable esthetics and function for longevity

September 27
Brian LeSage, DDS
• Case presentations
• Continuum review and final
Registration and Fees

You may choose any of the following methods to register:
Mail your registration form with your check or credit card information
Call us at (310) 206-8388 and use your MasterCard, Visa or AMEX

Course Fee
$6800 includes continental breakfast and lunch each full day. Payment Plans are available.

(10% Early Registration discount – 30 days prior)

Staff Day - The 3rd weekend will include topics relevant to your office staff. Bring up to 5 staff members on Friday September 25th for a single fee of $250.

“The UCLA Aesthetic Continuum was the highlight of my professional career, in fact, it was my best experience in dentistry since I graduated 28 years ago. Your program was the best. Now when I open my mail, and read about all of the programs out there I no longer wonder if I’m missing out on some great program; nothing can compare. Keep up the good work. Those of us working our offices everyday appreciate it.”
